# Diamonds for Christmas

Berridges is still one of the few locally owned businesses in Ipswich and has built an enviable reputation on quality, knowledge and honest advice.

Not only can our staff offer expert advice on classic and antique jewellery, but we also like to keep customers informed of the latest trends.

Your jewellery says just as much about you as the clothes you wear, and buying it is an emotive experience to be savoured.

If you are still stuck for gift ideas, enclosed is your personal invitation to our champagne and canapés reception on Sunday December 5th. This year we have chosen

a new venue for our event. The Manor at Wherstead Park, which will showcase some beautiful jewellery and gift ideas, we do hope you will be able to join us.

Enjoy a well deserved break from Christmas shopping, and pop in for some delicious home-made cakes and mince pies, the restaurant continues to thrive, and never fails to offer some wonderful culinary delights. Next year the restaurant is going to enjoy a total refurbishment, which we will keep you informed about.

Thank you all for your continued support in 2010, enjoy the festive season and we look forward to seeing you all very soon.

## Introducing Monica Vinader

We recognise that there are many modern jewellery designers who are currently producing stunning works of art and so we constantly search for what we believe will become 'modern classics' in jewellery design. One such find is the work of Monica Vinader.

Monica began creating her jewellery collection in 2002 based in her workshops in North Norfolk. Focusing on creating bespoke pieces for her private clients she now showcases her stunning ranges both in the UK and worldwide.

Monica has been developing the process of fine cutting unusual gemstones such as Labradorite and Chalcedony and mounting them in silver and silver gilt.

This seasons signature ranges include the silver Fiji bracelets which are available in an array of colours to depict your mood and start at £78.

Some of Monica's jewellery are worn by stars such as Cheryl Cole and Danni Minogue and can be found not only at Berridges but Harrods and Harvey Nichols!

## GEORG JENSEN

The name of Georg Jensen ranks alongside the greatest in jewellery design.

The original unique styles have been complemented over the years by the careful introduction of new designs from the talented craftsmen at Georg Jensen.

As a leading Georg Jensen jewellery stockist we are able to offer you all the latest collections such as Daisy, Moonlight and the new Extra range of bangles. Shown here is the new Sphere range designed by Regitze Overgaard, it is available in stunning Aquamarine or black Agate and Rose Quartz. The collection combines traditional Georg Jensen design language with a contemporary modern twist.

## Vintage Jewellery

**Why not treat your loved one to something truly unique this Christmas**

There has been a massive resurgence of interest in antique jewellery in recent years, unsurprising when you consider that top quality vintage items - with their old, natural gemstones, charm and often superior craftsmanship have become even rarer to find in good condition.

Although modern jewellery styles are pushing the boundaries of design and producing some stunning works of art, there is still a great deal of interest and affection for antique jewellery. From the early Victorian period that introduced ornate, European influences into jewellery design right through to the angular and geometric designs of the Art Deco movement, antique designs are still influencing jewellery designers today.

We have some exquisite and unique pieces currently in stock, as they are one-offs, they make the most amazing gift for Christmas, truly unique and very special.

OLD FLORENCE

This beautiful range of jewellery, designed by Marcello Vanni, and made in the Old Florence workshops in Italy, has been growing in popularity and a must have for any individualist.

Old Florence craftsmen draw inspiration from the aesthetics of nature and take advantage of the most modern techniques to create designs that are preserved with the timeless beauty of modern silver. Old

Florence's technical research is intent on expanding the silversmith's craft, opening new doors and inspiring fresh ideas.
