## Time to Sparkle

Welcome to the winter edition of Berridges news

With Christmas fast approaching we have been busy sourcing a great selection of the best in branded jewellery such as Georg Jensen, Fope and Thomas Sabo, whilst maintaining our superior individual collections with lots of more unusual and one off pieces available in our vintage and antique jewellery range.

There has been a massive resurgence of interest in not only antique jewellery but also in all things vintage such as handbags, clothing and accessories. It is unsurprising when you consider that top quality vintage items with their old natural charm and often superior craftsmanship have become even rarer to find in good condition.

Customers are often looking for something a little unusual and quirky and appreciate that many pieces in our vintage collections are literally unique. We have some exquisite items dating from Victorian, Edwardian, Art Nouveau and Art Deco periods; they make the most amazing gift for Christmas and are truly very special.

Wishing you a happy Christmas  
Christopher and Angela Hardman

## Classic Diamond Jewellery

Whilst we always stock classic pieces of diamond jewellery on a recent buying trip we were struck by some beautiful items that had a little twist on a classic theme. Below are some of these which we are sure will make you stand out from the crowd.
